

▶▶ YOU-GET

TESTER

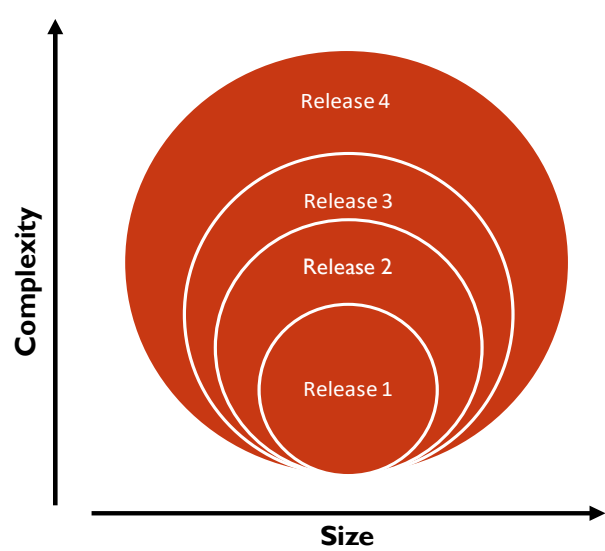

ADDED VALUE OF AUTOMATED TESTING

NO AUTOMATION

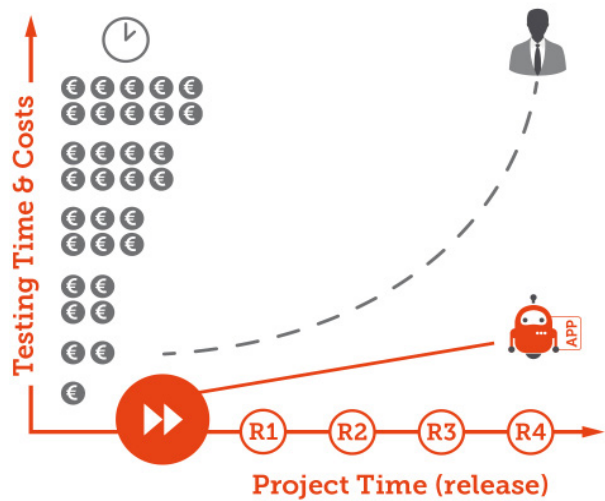

- ▶▶ More complexity with each release
- ▶▶ Lead time testing goes up
- ▶▶ Limited regression testing
- ▶▶ Prone to human error
- ▶▶ Feedback loop takes too long
- ▶▶ Number of raised issues increases

AUTOMATION

- ▶▶ Greater speed, lead-time and quality
- ▶▶ End-to-end testing
- ▶▶ Repetition
- ▶▶ Never same error twice
- ▶▶ Faster feedback loop to team
- ▶▶ Proof and documentation

Testing Time & Project time

METRICS FOR SUCCESS

- ▶▶ Without the AppTester, average manual testing efforts are able to reach 20% of needed application testing, with a lead time of 1-2 weeks
- ▶▶ Now, the AppTester enables you to test 80% of the application automatically, in less than a day

Proof in Delivery

“With the deployment of the You-Get AppTester we’ve fulfilled our strategy of efficient and effective operations. The AppTester provided us with higher quality and lower costs, contributing to a successful, consolidated and reliable IT landscape.”

– Operations department, Large Insurance Company in Holland

KEY FEATURES

YOU-GET

Structure

bringing consistency to your test efforts

Quality and Efficiency

guaranteed with automation, saving you time and costs

IBM BPM-specific to address your processes
